## THE BLAIRMORE PHARMACY

Gordon Steeves, Prop. Phone 110 Blairmore, Alberta

Gophers are out and kites are flying; but the surest sign of spring is the control of beer parlors. They are also going to insist on a better quality of beer.

British Columbia advocates government control of beer parlors. They are also going to insist on a better quality of beer.

## Town of Blairmore

### TO WATER CONSUMERS

Please be advised that, owing to lack of water from the reservoir, river water is now being pumped into the distribution system. It is recommended that water for domestic use be boiled.

CHAIRMAN OF WATERWORKS.

Mr. and Mrs. Fred Thnell, of Lethbridge, have taken up residence in Blairmore, where Mr. Thnell recently bought the tailoring and clothing business of the late J. W. Moresah. Order in Alberta.

Donald McNab, one of the best known old-timers of Southern Alberta, was last week elected and installed as grand master of the Orange Order in Alberta.

## SUDDEN DEATH OF FERNIE TEACHER

Flora McDonald, one of the best known members of the Fernie teaching staff, dropped dead from heart failure when leaving her school yesterday afternoon.

Miss McDonald was about fifty years of age and a cousin of Mr. J. Angus McDonald, of Blairmore. Mr. McDonald proceeded to Fernie by this morning's train.

## STRATHCONA SHIELD

PRESENTED

The formal presentation of the Lord Strathcona shield, won by Blairmore school, was made at a meeting held at the west ward school at 3.30 on Friday afternoon. Coupled with the shield, a scholarship is awarded Miss Sarah McVey.

The presentation was made by His Worship Mayor Farmer, who in fitting words complimented the staff upon their success, and particularly their own product, Miss McVey, for bringing such an honor to the school. Members of the board made brief addresses, as did also Mr. Bannan and Mr. Gillis.

Mr. McPherson, principal, thanked the mayor, trustees and citizens for their presence and for the shield and scholarship.

## BLAIRMORE PUBLIC LIBRARY

The new books added to the shelves this week are all for our Canadian section. We hope, in the course of time, to make this a very valuable section.

"An Outline of Canadian Literature," by Lorne Pierce; "Canadian Portraits," by Adrian Macdonald; "The Book of the West," by Kennedy; "The Backwoodsman," by Skelton; "Later Poems," by Bliss Carman; "Pathfinders of the West," by A. C. Laut; "Montcalm," by Wood; "Wolfe," by Wood. Library hours are: Tuesdays, Thursdays and Saturdays from 7 to 9 p.m.

## THE HUMAN SIDE OF THE WAR

As seen through the eyes of youth! When a picture bares the soul of an individual it is great: when it bares the soul of a generation it is tremendous! And "All Quiet" is a tremendous human document! It's more than a story of war—it's the heart-breaking story of youth face to face with internal turmoil such as youth never before was called upon to experience. It's the drama of youth's reaction to little things—the drama of human hearts hungering for happiness—the drama of simple emotions magnified by their very intensity into the most moving ideas ever pictured! You've seen the heroic side of war: screen many times—its color, its glamor, its lure. Now see its human side—the angle that makes this picture an entertainment thrilling in its epic sweep of drama, yet most poignantly powerful in its ability to lift you to the heights of human feeling!

## CRIME IN CANADA

Crime has grown by leaps and bounds in Canada, because we have been too darned "easy" on crooks. And because we keep right on in the same old careless channel, we do not seem to have a man who is willing to run the gauntlet of the "sob squad" and even present some effective measure for handling the denizens of crookdom. The whole British empire would appear to be developing a weakness in this regard. Even Britain, that nation of justice, is considering doing away with capital punishment for five years.—Cranbrook Courier.

Remember the dance to be held at the Union Hall, Hillcrest, on Monday night next.

## DEATH OF MRS. V. RUZICKA

The death occurred at the local hospital on Friday last, following a long illness, of Mrs. Vencel Ruzicka. Funeral took place from the family residence, Frank, on Sunday afternoon, the remains being laid to rest in the Blairmore Union cemetery. Services were conducted at the home and grave side by the Czech-Slovakian Society.

Mrs. Ruzicka was very well known throughout the Pass, being formerly Miss Mary Mottl.

Floral tributes were many and beautiful, and included: From Mr. and Mrs. F. Ruzicka, Mr. and Mrs. E. E. Donkin, Mr. and Mrs. Evan Morgan and family, Mr. and Mrs. Frank Herman and family, Mr. and Mrs. Jack Patterson and family, Mrs. Emily Cizek and family, Mr. and Mrs. Henry Zak and family, Mr. and Mrs. B. Marasek and family, Mr. and Mrs. J. Buchara and family, Mr. and Mrs. H. Novotny and family, Mr. and Mrs. Joseph Haner and family, Mr. and Mrs. Joseph Mottl and family, Mr. and Mrs. T. Veljprava and son, Mr. and Mrs. J. McDougall and family, Mr. and Mrs. Andel, Mr. and Mrs. N. Karijuk, Mr. and Mrs. W. Davis, Mr. and Mrs. F. Sterba, Mr. and Mrs. F. Pesh and family, Mr. and Mrs. C. Pesh and family.

Mr. Vencel Ruzicka desires through The Enterprise to thank all for kindnesses rendered and expressions of sympathy. He would also thank those who so kindly loaned cars for the funeral, including the Crow's Nest Pass Motors, and Mr. Frank Wejr for his words of comfort at the services.

The following acted as pall bearers: Frank Edl, Frank Herman, James Czek, Charles Czek, Anthony Pesh, and Vencel Pesh.

## MATHESON FOR JUDGE

Rumor again connects the name of Joseph D. Matheson, K.C., of Macleod, with an appointment as District Court Judge, this time, as a probable successor to Judge Taylor, who died in Vancouver on Monday.

That the name of Joe Matheson should receive consideration from his party goes without saying, and if he is appointed to the bench he will receive the congratulations of a host of friends, not only in Macleod and district, but from all over Alberta. Needless to say, the honor is due the gentleman, he is recognized as one of the outstanding leading lights in his profession, his advice has oft been sought and acted upon in many legal questions; and in the capacity of judge of the district court of Alberta, his keen knowledge of legal matters, his clear fair and above board methods in all things will ably fit him for this honored position.

In the service of the party, Mr. Matheson distinguished himself in the last election, and in his quiet Scotch way conducted a campaign, which was a surprise outside of the riding, where the Macleod seat was looked upon as a hopeless one by his conservative friends. Due to his campaign, Macleod will no longer be looked upon as hopeless, and the services of Mr. Matheson in the interests of his party cannot be overlooked.

The name of G. M. Blackstock, K. C., of Medicine Hat, has also been mentioned. Mr. Blackstock also stands high in his profession, and has been the unsuccessful candidate on the conservative ticket in Medicine Hat in three elections, and is well connected with the powers that be. Other names have been mentioned, but these two are the outstanding ones.—Macleod Gazette.

More than 116,000 young trees from government forestry plantations have been distributed among farmers on the prairies in western Canada during the past twenty-nine years. These trees have been planted on 100,000 farms as wind-breaks and shade.

**Would Go With Wilkins**

Hundreds Ask To Accompany Explorer On Arctic Trip In Submarine

More than 1,200 applications have come to Sir Hubert Wilkins from persons who want to go with him on his trip this summer under Arctic ice in a submarine.

Sir Hubert, who has been in New York to examine specially constructed lights which will be the "eyes" of the submarine, said "we have to eliminate those seeking to go only for adventure."

Wilkins said the submarine would begin its voyage from Spitzbergen about July 1 and would cross to the Behring Sea, passing the North Pole in its under-ice trip. A crew of about 20 will be taken in the submarine, Sir Hubert said.

**Cereal Research Grows**

Steady Increase In Cereal Research Carried On By Department Of Agriculture

The report of the Dominion Cerealist, L. H. Newman, B.S.A., for 1929, provides a graphic illustration of the steady increase in cereal research by the Dominion Department of Agriculture. In 1916, the total of plots used in experimental work numbered 2,017. In 1921 this had dropped to only 756. Since 1927, however, there has been a constant steady expansion in this important work. The total number of plots for 1929 being 15,950. This report, which is now available for distribution, contains a wealth of useful information for those interested in cereal grains.

**Marvels Of Marine Life**

Fish With "Electric" Power Plants Found In Bermuda Waters

Fleet-finned dragons from over a mile beneath the surface of Bermuda's coastal water, all brilliantly illuminated by their own power plants and never before seen by the folk of our world, are some of the marvels of marine life seen by Dr. William Beebe, who recently returned from his latest expedition to the Nonsuch Island. There he and a staff of fourteen men not only dragged the ocean bottom for exotic specimens of marine life but sought them in a diving bell among the coral reefs.

To obtain close views of the fish inhabiting the deeper blue-black waters, the scientist and his co-workers, Otis Barton, made a record descent of 1,426 feet in a hermetically sealed ball or bathysphere to a point where the pressure on the gauge was approximately 3,100 tons. A new and marvellous world was opened to the scientist when he descended in the bathysphere, for through his circular window of crystal quartz he saw what had been withheld from the human eye since time began.

During all about were a thousand lights burning steadily and clear in the inky blackness. These belonged to the illuminating systems of the residents. Some were ranged in rows like the portfolios of a steamship, while others burned from filmy antennas far from the body as the fish sought to attract its prey. All continued their glow until dimmed by the rays of the searchlight shot through the window. Then, the fish, until then unseen, took shape. The work lasted six and a half months and was exceedingly salubrious, the sweet sense of an infinite love overwhelms me and fills me with gratitude and thanksgiving."

China has had at least one famine each year for the past 2,000 years.

**SUNDAY SCHOOL LESSON**  
MARCH 8

**THE GOOD SAMARITAN**

Golden Text: "Thou shalt love thy neighbor as thyself."—Leviticus 19:18.

Lesson: Luke 10:25-37.

Devotional Reading: Matthew 5:38-48.

**Explanations and Comments**

The Law Of Love To God and Man, verses 25-28.—One time a scribe, an expert student and expounder of Hebrew law, sought to test Jesus by asking him a hard question. "What shall I do to inherit eternal life?" he queried, and by this he meant: What acts, such as fasts and prayers and sacrifices, would have special merit and would therefore be rewarded by life eternal? "What is written in the law? How readest thou?" thus Jesus bade him answer his own question. The scribe then quoted Deuteronomy 6:5 and Leviticus 19:18: "Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind (i.e., with all thy power); and thy neighbor as thyself. That Jesus united the two, love for God and love for man's neighbor, is not surprising, but that the Scribe does so causes one to surmise that it was brought about by some remark of Jesus which is not recorded. "Thou hast answered right," said Jesus.

"Oh, woe not thus the lesson thou hast taught?"

When life's all love, 'tis life; aught else, 'tis naught."—Lanier.

What it means to love man, the parable that follows explains, but what does it mean to love God? Dr. Frederick W. Robertson says that it can mean only one thing: God is character, and to love God is to love character. For instance, God is Purity, and to be pure is to love God. God is Love, and to love men is to love God. God is Truth, and to live a brave, true, real life, that is to love God. So Whittier, in one of his letters wrote: "I have no consciousness of loving God as a Person, or Power, apart from his attributes. I have no experience or ecstatic emotions, but I know that I love goodness and mercy, charity and peace; that my soul longs for harmony and moral symmetry; that I would sooner wrong myself than my neighbor; and, at times, the sweet sense of an Infinite love overwhelms me and fills me with gratitude and thanksgiving."

**Racing Trains To Crossings**

Foolhardy Motorists Will Get No Consideration In Japan

In the future the motorist who races trains to crossings will do so at his own risk. His bet will have no claim on any railway company, public or private. If his temerity sends him on a journey he had not expected to take so immediately. The new ruling is a recognition of the fact that this is an age of speed, and that the country will be benefited more by faster train schedules than by preserving the lives of idiots who race trains to crossings.—Japan Advertiser.

Conscientious Guide (as character falls over the cliff): We have just left Goughniff, ladies and gentlemen. The Bong lighthouse is on your right, and we are now approaching the English Channel.

**She Couldn't Be Hoodwinked.**

Miss M. Thompson, of Clapham, writes: "I find that Carter's Little Liver Pills will do more to keep the complexion clear, and the skin free from blemishes, than all the face creams I have used. I found the real cause of face blemishes was usually due to liver and stomach troubles. My druggist recommended them as a specific for stimulating the liver and expelling the constipation poisons from the system."

Take Carter's Little Liver Pills for rich headache and indigestion. All druggists 25¢ and 75¢ red pkgs.

**Taking the Census**

Army Of 15,000 To Be Engaged In Huge Undertaking

Three times as many persons will be needed to complete Canada's decennial census this summer as Wolfe had when he stormed the Quebec citadel to annex the country to the British Empire, writes R. H. Coale, Dominion statistician. On June 1 next a veritable army of 15,000 men and women will begin enumerating the population of the country, gathering eugenic and racial information and social and economic records. It will be the seventh census since Confederation and will be unique in that unemployment figures will be gathered and information regarding hospitals, asylums and child welfare institutions.

As head of the enumeration and compilation staff, Mr. Coale sought the co-operation of all Canadians, asking that they furnish accurate information when interrogated and expedite proceedings as much as possible.

## THE PETITION ON PROHIBITION

There has been circulated within the province by the prohibition forces, a petition which requests the government to close the beer parlors or at least have another plebiscite on the question. Many people have signed the petition, sufficient to ensure its requests being carefully considered by the government. There is no indication that there will be a plebiscite or any change in the government's present plan of governing the sale of beer, but a large petition is similar to a snow ball rolling down hill—it becomes larger as it travels and simply because it is large, many people sign it, without giving the question the careful thought the placing of their signature upon it entitles it to.

Just prior to the last "prohibition election," some five or six years ago, we wrote something to the effect that the beer room question was a bewildering one. The province had experienced some ten years of prohibition regime and while a lukewarm supporter of the prohibition movement in its infancy careful observation during those ten years was convincing proof that if prohibition did away with certain evils it immediately brought others in its train.

Perhaps the last five or six years of the beer parlor's existence has caused many to forget these evils. There were the "blind pigs," illicit stills, the booze peddling bootlegger, and the worst of all, to our mind, the effect the prohibition law had upon the younger generation. We had assumed before the law came into effect, that with the closing of the bars interest in intoxicating beverages would gradually die out and future generations would only know of whiskey, brandy, rum, etc., in a historical way. But, according to our observation, the exact opposite occurred. Teen-age boys, and even girls, who before the advent of the prohibition law were content to leave the consumption of intoxicating liquors to their elders, probably not giving them a second thought, now began to take an interest in them. With bravado taking the place of good sense it was not long before the more daring were tipping frequently, not so much because they liked it, but because it gave them "prestige." It is not difficult to analyze the effect of a prohibitory law upon people when it is re-

membered that the thing prohibited is not wrong doing. The law of the country may define drinking intoxicating beverages as a crime, but when it is openly known another country is wronging the sale of it, there is no sense of wrong doing connected with it. This perhaps accounts for the fact that during prohibition one could obtain, almost at any time, intoxicating drinks among the guests of the best hotels of the country. In other words, to those who really wanted to drink and were possessed of funds, the prohibition law was not taken seriously; and it appears to us, if a law is not taken seriously not only by a few bootleggers, whose one view is gain, but by a large proportion of citizens, who desire nothing more than to exercise the liberty of their own thought and action, that particular law is not perfect. This is our experience and as such we record it.

The beer parlors have been functioning now for several years. To an ardent prohibitionist they are naturally a nuisance, probably to the distiller of hard liquor they are not what they should be; but to thinking men and women of Alberta, especially those who have gone through this "prohibition movement," those beer parlors that are properly conducted are not, when all things are considered, a detriment to Alberta, therefore we see no immediate need for their abolishment, nor for the petition calling for such.—Wainwright Star.

There is one desirable element the people must possess in those trouble some times, and that is courage. Last fall when wheat went down to fifty cents, or thirty cents net, all business was at first based on the price of thirty cents for wheat, notwithstanding the fact that thousands of farmers had sold their wheat at a price nearly double this amount. It was when the great losses sustained by the pool and grain companies in general became known that the real panic took hold. The provincial secretary said in presenting the budget that the farmer may have to revert to his primitive standards of living, where he lives practically from the soil and has little money to spend. If our social conditions are coming to such a point, we can see nothing but revolution in the immediate future. In the interests of social progress it is essential that the gulf between the living standards of the agriculturalists and the urban dwellers shall not widen. Rather should it attain to a more equal status. Nothing could be more injurious to social and industrial progress than to allow such a state of affairs to come about.—Clareholm Local Press.

Following the robbery of a Royal Bank branch at Regina, two arrests have been made and the parties identified as those who performed the "stick-up."

## WHY FEAR RUSSIA?

We are told that Russia, by dumping wheat on the English markets, is going to keep prices for Canadian wheat depressed for years to come; that it is going to pour huge cargoes of pulpwood into the United States, and cut off that market for the million cords or so of Canadian pulpwood that cross the border from Canada year by year; that it will produce steel more cheaply than U.S. Steel Corporation, and compete successfully with that and other large organizations in the United States market; that its stocks of crude petroleum will drive down crude prices, and accentuate conditions that have not been any too favorable for several years.

Why should the "cheap labor" of Russia be feared as a permanent element in our economic life more than the cheap labor of scores of other countries? Has a group of supermen arisen in Russia that has more brains than the best that England and Canada, and the United States and Germany and Italy and other countries have to offer? The engineers of Russia that are building their huge steel plant or plants, and are mechanizing agriculture, are men that are taken from other countries, including Canada. If the Russia five-year plan succeeds and brings a considerable degree of prosperity to the average Russian workman, it seems logical to believe that this in itself will prove the undoing of Soviet rule, in so far as it pre-supposes the practical enslavement of the great mass of the people of that country.—Kamloops Sentinel.

Old-time dances and music will be featured at the dance to be held in the Lundbreck hall on the night of March 17th.

It is extremists who stir up animosity. In connection with liquor legislation, Mrs. McKinney voiced strong opposition against newspapers carrying liquor advertising, and urged that steps be taken to prohibit this. Yet these same people ask the newspapers to carry their free publicity to extol their own claims for righteousness. Frankly this paper will not support or encourage people who are so abominably inconsistent. They travel in to much of a rut, and we do not care one rap if it depends into a grave.—Coleman Journal.

Jimmy Grant, famous prospector of the Rossland boom days, awoke in his sick bed a week ago Monday to read his own obituary. Backing up his boast of many years that he was physically a "smoking good man," he vigorously protested the obituary and read a correction of it in the newspapers next day. On the Friday night he died. Ordered to Vancouver a few years ago for a change of climate, he was a passenger on the train on which a bomb exploded and killed Peter Vergin, senior, leader of the Doukhobors. Grant was seriously injured in this explosion and had to be taken back to Nelson.

We have pleasure in announcing that a series of advertisements will appear in our advertising columns for the Paulin Chambers Company Ltd., the oldest established firm of manufacturers of biscuits and confectionery in Western Canada. Paulin's Peerless Cream Sodas, in the Long Red Package, are known to every housewife in the west, and they are MADE IN THE WEST. Every time you buy a Long Red Package you help to keep the wheels turning and workers employed in farming, dairying, flour milling, lumbering, paper making, printing, biscuit making and many other allied industries, and we suggest the thought that if our western people are to have money to spend there must be sound and busy western industries in which they can earn good steady wages.—Western Canada Makes Western Canada. This is a slogan which, in urging support of western industries, puts the matter in a nutshell.

BLAIRMORE UNITED CHURCH  
Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services Sunday, March 8th, the pastor in charge.

11 a.m.—SENIOR SCHOOL.

2 p.m.—JUNIOR SCHOOL.

7:30 p.m.—PUBLIC WORSHIP.

Text: "If any man will open the door, I will come in to him, and sup with him and he with me." This being the third in the series of Lenten messages.

ST. LUKE'S, BLAIRMORE  
A. S. Partington, Vicar

Every Thursday during Lent—Holy Communion at 10:30 a.m. Girls' Guild at 4:15 p.m., at Mrs. Hills. Choir practice at 7 p.m. Lenten service and address at 8 p.m. Tonight's subject: "Mary of Bethany."

Friday—Children's service at 4:15 p.m.

March 8th, third Sunday in Lent—Sunday School at 10 a.m. Evening song at 7 p.m.

To the credit of church going motorists, be it said that that few of them break the speed limit on their way to church.

In return for the most discourteous treatment meted out to the Blairmore squad at Gleichen, the Blairmore gang entertained the Gleichen bunch to an excellent banquet here following the game on Saturday night.

Eliciting for speedy trial, Sidney and Harold Stubbert, of Taber, came up before Judge McDonald at Macleod on Tuesday and were found guilty of burglarizing the store of D. A. Boyle at Granum with violence. Sidney was sentenced to six months imprisonment. Sentence of Harold was deferred for two weeks.

## CANADIAN GOOD—WILL TOUR SAILS

When the Canadian National steamship "Prince Robert" sailed last week with the Canadian Good-Will and Trade Mission to South America, she flew the blue ensign, an honor conferred upon the ship by the Admiralty in recognition of her carrying the required number of naval reservists.

The warrant to fly this ensign was granted by the British Admiralty by cable to Ottawa and was immediately transferred to Captain W. B. Armit, R.D.R.N.E. The ensign was hoisted on the arrival of the two special Canadian National trains which brought the 175 delegates and their wives from Montreal to the ship's side. The S.S. "Prince Robert" is the only passenger ship of Canadian registry which has this right, as she carries a commander who is a naval reservist and eight officers of the same status.

The census taker approached a little tumbled down shanty on the outskirts of Savannah and pushed his way through a bunch of little pickaninies who were playing in front of the door. He knocked. The door was opened by a large lady of color. After the usual preliminary questions the statistics gatherer asked:

"What is your husband's occupation, Lisa?"

"He ain't got no occupation. He's daid."

"He done passed away fo'ten years ago, huh," replied the negress.

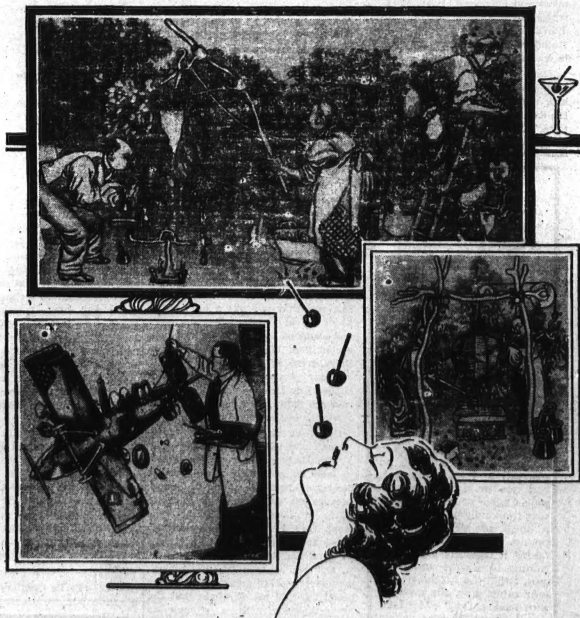

"Then who do all these little children belong to?"

"Dey's mine, huh."

"Why, I thought you said your husband was dead."

"He is, but 'ah ain't."—Jack-O-Lantern.

## Imagination Runs Riot

When he launched the 42,500 ton Canadian Pacific liner Empress of Britain, H.R.H., the Prince of Wales, referring to the Kickerbocker Bar—as the cocktail bar of that magnificent new ship is to be known—said that its frequenters "can let their imagination run riot in a rosy haze amid the fantastic designs of Mr. Heath Robinson."

The Prince referred to the announcement that Britain's foremost humorous artist has been given a free hand to decorate that room on the new liner which is to make its bow to Canada June 22nd next. Developing a humorous legend of the cocktail of his own invention, Mr. Heath Robinson, who is shown above at work on some of the panels, has prepared a decorative scheme that extols the virtues of the cocktail and depicts ingenious machinery employed in its manufacture.

Heath Robinson's ideas of the latest labour-saving machinery in connection with the selection and preparation of cherries for cocktail embellishment are shown together with the Foolproof Safety Aeroplane, a direct descendant of the mythical cocktail bird. This ceiling decoration depicts the uplifting powers of an appetizer. These and other drawings will appear on the walls and ceiling of the room.

# Tom Thumb Golf

WHERE was it, or who was it that wrote, "Sports of children satisfy the child?" Something like that anyway. In the days gone by ping-pong used to make me think of this quotation. Today Tom Thumb Golf or Tee-Wee, or backyard or tin can golf, or whatever other name it goes by, suggests the same thing. And this is no argument against the pastime, either, nor is it an attempt to condemn those who play it. We're all merely "kids" who have lived a little longer. "And when the craze for Tom Thumb Golf is considered impartially, doesn't it lead to rather alarming conclusions? One American newspaper says that these "half-pint" golf courses are springing up all over the country like mushrooms in a mouldy cellar. They may be found in the parks, backyards, vacant lots, country fields, in the attics or basements of houses everywhere. The craze for the game is not confined to any one country either. Every country of the world practically has become infected—and practically everybody plays. Even conservative and dignified old England has "fallen" for the fad and the people over there play it with almost as much pep as they play cricket.

Listen! A wire over the Associated Press network recently carried the news to a wondering world that the Prince of Wales, while visiting the Royal Family of Belgium, played Tom Thumb Golf with Queen Elizabeth. The article didn't say who won but there is one thing certain, the universally recognized courtesy of His Royal Highness was no asset in carrying out a desire to pass over the thrill of victory to his beautiful opponent in the game. Tom Thumb Golf, you know, is a kid's sport, in which flukes carry away the cup. Why, Bobby Jones was beaten three times in succession—no gossip has it anyway—by a chap who never before had a putter in his hand. Coming nearer to home, why the scribbler of this sketch beat C. M. Hamilton, the chairman of the Boys' and Girls' Grain Judging Committee of the 1932 World's Grain Exhibition and Conference, in four straight games. Hamilton is some golfer, too, as an amateur, and this scribbler of sketches can't put a ball with a six foot putt once out of ten tries.

But everybody is playing it, the rich man, the poor man, the beggar man, the thief, the doctor, the lawyer, the minister, the chief. The New York World estimates that more than a hundred million dollars are invested in 25,000 "courses" in the U.S.A. Canada is "Tom Thumb" crazy in proportion.

However, it was ever thus.

"Sports of children satisfy the child." We who have "grown up," after all, are merely children who have lived a little longer.

## Alphabet of Proverbs

A grain of prudence is worth a pound of craft.

Boasters are cousins to liars.

Confession of fault makes half amends.

Envy shooteth at others and woundeth herself.

Foolish fear doubles danger.

God reacheth us good things by our own hands.

He has worked hard who has nothing to do.

It costs more to revenge wrongs than to bear them.

Joy is the price of sorrow.

Knavery is the worst trade.

Learning makes a man fit company for himself.

Modesty is a guard to virtue.

Not to hear conscience is a way to silence it.

One hour today is two tomorrow.

Pride goeth before destruction.

Tom Thumb Golf

By Cy

Quiet conscience gives quiet sleep.

Richest is he that has least.

Some faults indulged are little thieves that let in greater.—Ex.

An inquirer asking Rastus about his native village:

"Rastus, how many people live in this town?"

"Bout 4,000 people, suh."

"How long you lived here, Rastus?"

"Bout 40 years, suh."

"How many people when you came here?"

"Bout 4,000 people, suh."

"You mean to tell me there were 1,000 people 40 years ago, and only 1,000 now? Hasn't the population grown? Have no people moved in; no babies been born?"

"Yes, suh, yes, suh—babies been born, but you see, it is this way: Every time a baby is born, some one leaves town."

## Here and There

(627) The reason why interference by the government in business, or worse, the active engagement by the government in business, is harmful, is because it is not accompanied by efficiency, and inevitably means waste and increased taxation," was one of the outstanding statements made by E. W. Beatty, chairman and president of the Canadian Pacific Railway, in an address at the annual dinner of the Canadian Chambers of Commerce held at Toronto recently. It was, he thought, a dangerous tendency and one that should be combated by Canadian and American business men.

There are at present in the Province of Quebec 33,040 miles of rural roads, of which 5,316 miles are first-class roads, 8,578 miles second-class and 18,644 third-class. Over 2,500 miles of roads in the province or about 41 per cent. are permanently improved and surfaced with either concrete, macadam or gravel.

Thoroughly representative of Canadian business across the breadth of the Dominion from Montreal to Vancouver, members of the Canadian Chamber of Commerce left the latter city October 16 on the Empress of Russia for the Chamber's official tour of Japan and China. The party includes financiers, editors, manufacturers, professional and business men of national reputation. It is the most important delegation ever to leave Canada for the Far East.

Sir Benjamin Robertson, member of the Council for India, who has just completed a seven-week tour of Canada from Atlantic to Pacific, said he had been greatly impressed both by the people and the possibilities for economic development of the Dominion. He was much gratified to find throughout Canada a feeling of loyalty to the Empire which "one recognizes almost instinctively." Sir Benjamin, who came to Montreal on the Metagama, August 23, left Saint John for New York to return to England October 9.

Since the new steamer Princess Helene was put into service on the Bay of Fundy route August 27 last, there has been an increase of slightly more than 25 per cent. in the general traffic on the route between Saint John and Digby, reports issued recently by the Canadian Pacific Railway reveal.

"Lack-a-day Lix," enigmatical young person whose character is checkfull of surprises, made her first radio appearance at a recent Monday evening in the programme from "Melody Mike's Music Shop," new Canadian Pacific railway radio feature. This programme is broadcast over the C.P.R.'s trans-continental network of Canadian stations, linked together by the broadcast transmission system of the railway, including jet stations in western Canada. Many tune-in songs and choruses, including old-time favorites and popular song hits, are incorporated in the programme from Melody Mike's music emporium.

Addressing the Teachers' Convention held at Montreal recently, Major G. G. Ommannby, director of the department of development of the Canadian Pacific Railway, adduced a wealth of data and figures to support his contention that nothing could stop the Dominion's future progress and growth.

# Government Analyst GIVES REPORT ON ALBERTA BEERS

## Quality is Better than Pre-War

Rumors have reached us regarding the Quality of Alberta Beers and in order to settle the question, samples were taken out of Distributors Ltd. stock and sent to Dr. James A. Kelso, Provincial Analyst, University of Alberta. The following four questions were asked of Dr. Kelso:—

1. Is the Beer sufficiently matured?
2. How does it compare in quality with the Alberta Beer analysed by you in pre-war days?
3. Is the Beer wholesome in every way and free from all foreign substances?
4. What comments have you to make on the keeping qualities of the Beer submitted?

## THESE QUESTIONS WERE ANSWERED BY DR. KELSO AS FOLLOWS:

1. All samples are, in my opinion, sufficiently matured.
2. In my opinion all of the Beers are of better quality than pre-war product, which was often cloudy. Beers tested by me during past year are much more uniform in strength, extract, etc., than those before the war.
3. I would consider the Beers wholesome in every way and free from deleterious constituents.
4. Judging from the forcing test all samples of bottle goods tested are efficiently pasteurized. The freezing test shows the Beer of satisfactory keeping qualities, with proper elimination of such proteins as are thrown out of solution by low temperatures. The draft Beer, not being pasteurized, could not be subjected to forcing or freezing test, and I consider samples of such Beer properly matured and of satisfactory keeping qualities if kept under correct conditions.

"The bottle liquors, with exception of the Porter and Stout were given a forcing and freezing test. This is done by keeping the Beer at temperature of 90 to 100 degrees for one week, then freezing solid and thawing in chilled ice. In all the samples there was neither cloudiness or any sediment, tests showing perfectly clear."

The original report is on file at Distributors Ltd., head office, Calgary, and is open to public inspection. Space only prevents us from publishing the report in detail.

**Positive proof that no artificial or foreign ingredients are used in the manufacture of Alberta Beers. Highest quality materials only, scientifically combined by Master Brewers**

## Malvern Calls To Drama-Lovers

Malvern's beacon blazed forth the news of the Armada over the entire West Country, so from the little English town, nestling among the Welsh hills, shire hills had against the Welsh border, word goes forth to-day of the keeping alive of the spark of the English drama, faithfully from year to year, by means of the town's Annual Festival. Under the direction of Sir Barry Jackson, this event has become a national institution, even as its companion festival at

Shakespeare's immortal Stratford-upon-Avon. This year's program includes known and unknown English productions dating from 1613 to 1931 and is dedicated to George Bernard Shaw, to whom Sir Barry is looking to produce a new play, as the principal item of the bill, as he did "The Apple Cart" at the original Malvern Festival. The festival runs from August 3 to 22, inclusive, consisting of three repeated weeks of plays and a series of lectures by well-known authorities. Malvern is only 129 miles from London, but Gloucester and Worcester, both cities of considerable size and offering first-class hotels, are within easy reach. The town itself is also making special arrangements for the comfort of visitors during festival time. In addition to this the whole of England is studied with villages and small towns with

good accommodation for travellers, and is criss-crossed with railways and excellent automobile roads, in scenery of unsurpassed splendour. Sailings of the Canadian Pacific Railway, from Quebec to Southampton and Montreal to Liverpool, respectively, make excellent connections with the various weeks of the festival at Malvern, and will include the palatial new Empress of Britain, the biggest and fastest ship in service between British Empire ports.

George Bernard Shaw

Sir Barry Jackson

## DEPRESSION?

Every one's scenting a panic.  
Every one's singing the blues.  
Sill! whenever you go to a picture show,  
You'll stand—till they're through with the news.  
The country is going to perdition,  
We'll have bread lines before we have snow—  
But try to buy seats for a football game  
And see what you get for your "dough."  
We're all going to starve—that's decided,  
A job simply cannot be bought,  
But when Sharkey fights Who's this just try to get in  
And you'll see what "hard times" we've got.  
The gov-ern-ment's got to do some-

thing.  
Or we'll fall in our tracks, and we'll lay—  
Yet the lady, by goah, who does up our wash  
Brings it back in a nice new couple.  
So I think all this talk of a panic,  
Of the country about to go "bloody,"  
Between you and me, and the old apple tree,  
Is a lot of plain old-fashioned "hoo-ey."  
—Ex.  
The editor of a newspaper wheeled his chair around and pressed a button on his desk. The office boy entered.  
"Here," said the editor, "are a number of directions from outsiders telling us how to run our paper. See that every one is carried out." And the office boy, gathering them all in a large waste basket, did so.

The Benefit of Turnover.  
"If your boy belonged to me I shouldn't stand so much of his nonsense at meal time," declared his aunt. "I should give him a thrashing."  
"But," protested the mother, "you can't spank the poor little fellow on a full stomach."  
"No, of course not," said his aunt, "but you can turn him over."  
Teacher: "Who is the smartest man living?"  
Pupil: "Thomas A. Edison. He invented the phonograph and the radio so people would stay up all night and use his electric light bulbs."  
Mother: "Who taught you that wicked word?"  
Willie: "Santa Claus."  
Mother: "Santa Claus?"  
Willie: "Yes, when he tumbled over my bed on Christmas morning."

# THE WORLD'S GRAIN SHOW

Hon. W. R. Motherwell

WITH a record of nearly half a century of labor in the interest of farmers and farming industry, Hon. W. R. Motherwell, former Minister of Agriculture for Canada, is a member of the Executive of the World's Grain Exhibition and Conference. When the Exhibition and Conference was organized three years ago Dr. Motherwell, by virtue of his position as head of Canada's Agriculture Department, became the chairman of the National Committee. Recently, upon his retirement from the Dominion Government, he was appointed to the Executive Committee of the World's Grain Show in order that he might continue to give to the forthcoming world-wide event the benefit of his long agriculture experience.

Hon. Mr. Motherwell was born in Lanark County, Ontario, in 1860, and after attending public and collegiate schools in that district took a two years' course at the Ontario Agricultural College. In 1882 he migrated to the West, locating on a homestead at the Abernethy, Saskatchewan, district, where at the present time he owns and operates one of the most attractive farms in the West.

Uniting in his efforts on behalf of the farmers of the West in the early days he soon found a place in the public life of Saskatchewan and was elected to the Saskatchewan Legislature for the Province for 13 years. In 1921 he was elected to the House of Commons and entered the government of that day in charge of the agricultural department.

Dr. Motherwell is an honorary member of the British Society of Agriculture. In 1923 he was given the degree of LL.D. from the University of Saskatchewan, and also holds the order of Commander of Agriculture Merit.

## CORBIN HAPPENINGS

Mr. Archie Grievie was removed to the Fernie hospital on Sunday, suffering from a bad case of blood poisoning in one foot.

On Friday, March 6th, the hockey boys are giving a dance in the club hall.

Mr. Lloyd Macleod gave a very interesting talk on the development of Russia on Tuesday night. The hall was crowded for the occasion.

Corbin is experiencing a wave of mild weather now. The snow is disappearing off the hill sides, also the ice from the rink.

## COWLEY HAPPENINGS

Dave Bouthillier has gone to Montreal for a visit, where he will spend several weeks.

Mr. and Mrs. George Heaton, of Maycroft, were visitors to Pincher Creek on Monday.

Mrs. Lem. Smyth is spending a holiday in Calgary.

Albert Cleland has gone to Lethbridge for a two weeks visit.

Several of the local enthusiasts motored to Blairmore on Monday night to witness the Lacombe-Blairmore hockey game.

The regular monthly meeting of the Cowley Women's Institute was held on February 28th. A quilt is now being made to be raffled.

The Cowley Ladies' Bridge Club was entertained at the home of Mrs. Robert Littleton on Monday night.

The Cowley men's five-handed club played a well contested game with the Lundbreck club at Lundbreck on February the 19th, with the latter club winning. On the night of the 26th they played another contest with the same result.

## HILLCREST HAPPENINGS

Mrs. Fred Willems held a successful whist drive at her home last Friday evening. The prizes were won by: Miss B. Sellen, first; Mrs. A. Low, second; Mrs. J. Dudley, consolation.

Mrs. Jack Makin returned from a visit to Montreal Park.

G. E. Cruickshank, M.L.A., returned home for the week end, and left again for Edmonton on Sunday night.

The United church is holding a concert at Cole's theatre on Friday night. A play, arranged by Mrs. Moser, entitled "That's an Omen," and other interesting items are on the programme.

A very successful orchestral concert was given by Mr. W. H. Moser in Cole's theatre last Sunday. Solos were rendered by Misses Beatrice Trono, Audrey Martin, Catherine Rose, Laura Freebairn and Master J. Marshall.

The Hillcrest contingent of the Crows' Nest Pass Cabs arrived two hours late at High River for their match with the juniors of that town, delay caused by car trouble.

Mrs. D. Grant left for a short visit to Calgary on Sunday night.

Mrs. D. Davies rendered a vocal solo at the St. David's night in Calgary on Saturday.

The Hillcrest football team defeated Pincher Creek by four-three.

## U. S. INVESTMENTS IN CANADA RISE

United States investments in Canada have increased by \$1,669,000,000 during the past eleven years. In the same time British investments have increased by \$22,000,000. Other foreign investments have shown a decrease of \$23,000,000. In the past five years alone United States investments in the Dominion have shown a net increase of more than \$1,000,000,000.

Total capital investments from all countries in Canada at the end of 1930 amounted to \$6,375,533,000, an increase of \$229,000,000 over 1929.

Small Boy: "What is college bred, pop?"

Pop (with son in college): "They make college bread, my boy, from the flour of youth and the dough of old age."

## Local and General Items

Trail was last week end defeated 3-2 by Vancouver in the British Columbia senior play-downs.

No, dear friend. The Blairmore-Lacombe hockey game was not lousy. It was the Coleman "boos" that made it feel that way.

Nine aircrafts were destroyed by fire that swept the Winnipeg hangars yesterday afternoon. Damage is estimated at one million dollars.

A. J. Cook, secretary of the Miners' Federation of Great Britain, will be a visitor to Canada late this year or early in 1932.

Coleman is organizing to care for the Scotch. Thank goodness, we can accomplish that feat without organization in Blairmore.

Rt. Hon. Arthur Meighen urges reduction of gold base standard as a means of preventing economic depression.

Before marriage he gives her a ring to admire and afterwards he leaves one around the bath tub for her to fuss and raise cane about.

The total revenue from all forms of admission to the 1930 Canadian National Exhibition at Toronto reached \$559,693.

The death occurred in a Calgary hospital on Friday last of Mrs. Lancaster, wife of Hugh Lancaster, Indian agent at Brocket. The remains were laid to rest at Pincher Creek on Monday afternoon.

A girl known on the stage as Lotie Mason, but better known at Warner, Alberta, her former home, as Mrs. Pearl McGinnis Bates, was murdered at Klannath Falls, Oregon, the badly mutilated body having been discovered in a hotel room.

The Claresholm Local Press of last week came through with this item: "An old-timer is a person who can remember when lightning was considered fast. And the same paper was dated March 27th, 1931. How's that for speed?"

A prominent citizen of Winnipeg, upon hearing the unsportsmanlike boing of Coleman and Bellevue fans at the Lacombe-Blairmore game, suggested that such folk should go back to the cradle. And really, the cradle is too large for many of them.

## CROSSED ATLANTIC IN 45 LIT SAILING CRAFT

"This is a little more comfortable than my trip from England to Bermuda," declared J. W. Smith, of London, England, as the Canadian National steamship "Lady Somers" sailed from Halifax last week, for Bermuda, Nassau, the Bahamas, and Kingston, Jamaica. Mr. Smith, who was a passenger on the "Lady Somers" to Bermuda, crossed from Rochester, England, to Bermuda in 1928 via Lisbon in a 45-foot sailing craft. Referring to this voyage, he stated, he wished to proceed from England to Bermuda and knew no more economical way of getting there. He made the trip with two companions, the ship being equipped with an auxiliary motor. "Our trip was without incident," said the intrepid mariner, dismissing the subject of his feat.

We are glad to see "Teddy" Royle about again, after a period of incarceration at his home and hospital, where we understand he suffered from a muffled trail.

Two suspected members of a gang of bandits and robbers that held up or robbed various institutions at Calgary, were taken into custody by British Columbia police over the week end and were later escorted to Alberta.

Policeman (to motorist who nearly collided): "Don't you know that you should always give half of the road to a woman driver?"

Motorist: "I always do when I find out which half of the road she wants."

## Here and There

(647)  
"The Canadian Government is co-operating with ranches and exporters in Great Britain for a Canadian cattle," said Hon. Robt. Weir, Minister of Agriculture, who visited Montreal recently to inspect an experimental shipment of western steers at the stockyards in that city. The cattle, comprising 416 head of short-horns, Herefords, Angus and pure-bred steers, were brought to Montreal on a Canadian Pacific Railway train for shipment to Manchester, England.

Analyzing the causes of business depression in Canada, E. W. Beatty, chairman and president of the Canadian Pacific Railway, in a speech before the American Institute of Steel Construction, recently held in Montreal, suggested that cancellation of foreign debts due the United States would prove a great world conditions and benefit the country that cancelled them. "It is not surprising," said Mr. Beatty, "that your use of great vision have reached the conclusion that if they (the war debts) were removed, industry would be stimulated, trade would expand and prosperity would return, and out of the great revival of the world's conditions would inevitably come great benefit to the United States."

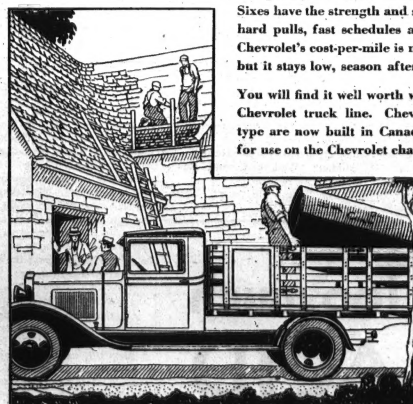

A forty-mile ski marathon from Lake Louise to Banff will be one of the big features of the Banff Winter Carnival which will open February 1st next. The run will cross turbulent mountain streams and will follow ascending and descending ridges of great height. "The snow travelling in the last half" is the way ski-jumping experts have planned it, describe the event.

Pur farming in Canada is now considered as a leading industry. The latest available figures show that the industry to-day represents a value of \$22,860,617, of which \$16,401,452 is invested in far-bearing animals. Prince Edward Island is the leader in the industry, with Ontario and Quebec not far behind. Ten years ago total value of far-bearing animals on all farms in Canada was placed at \$4,723,105.

## For heavy work the whole year 'round at the lowest cost-per-mile

CHEVROLET trucks are always ready to do a good job—at low cost. These big, powerful Sixes have the strength and stamina for long hauls, hard pulls, fast schedules and rough going. And Chevrolet's cost-per-mile is not only extremely low, but it stays low, season after season.

You will find it well worth while to inspect today's Chevrolet truck line. Chevrolet bodies of every type are now built in Canadian plants exclusively for use on the Chevrolet chassis.

Chevrolet 1 1/2 Ton Chassis with 131" Wheelbase,

**\$675**

(Dual wheel option, \$30 extra)

**1 1/2 TON CHASSIS WITH 137" WHEELBASE, \$730**

(Dual wheel option, \$30 extra)

**COMMERCIAL CHASSIS, \$470**

(Dual wheel option, \$30 extra)

Illustration shows the Chevrolet 1 1/2-ton truck equipped with Chevrolet stake bed and dual wheels. All prices in U. S. dollars. Freight and special equipment extra.

**FEATURES:** These wheelbase models—a 109 inch commercial chassis of half-ton capacity, and two 137-inch truck models of 1 1/2-ton capacity. Features include: New dual rear wheels, with 16" x 5" 8-ply truck-type steel tires. New and heavier front axle. Special truck-type clutch with synchro disc. New and heavier rear axle. Massive new frame. Fully equipped 4-wheel brakes with larger rear drums. Four-speed transmission. New, roomier, rear-loading cab. 24-horsepower 8-cylinder valve-in-head engine.

### Thrift --- Waste

At the present time people in all walks of life, individuals, corporations, governments, are deeply concerned over the prevailing business depression, unemployment, loss of purchasing power, accumulation of debts. Everywhere people are seeking to learn the primary cause with a view to applying a cure; they are anxious not only to overcome existing conditions, but to ascertain the cause with a view to preventing a recurrence of such conditions.

Some talk learnedly of the world's supply and distribution of gold, which is the basic standard of all international business. Others complain of over-production, although the more generally accepted view now is that the world suffers not so much from over-production as under-consumption. Enormous war debts imposing heavy taxation on all, are held by some to be the underlying cause. Restrictive tariffs, shutting off nations and interfering with the free flow of trade, are blamed by others. Faulty and unduly expensive methods of distribution from primary producer and manufacturer to the ultimate consumer are responsible, so others contend.

But when all these, and a multitude of other things are considered and given their due weight, does not the basic cause lie much nearer home for the average individual? Is it not because of a lack of thrift, the indulgence in habits of waste, that many persons find themselves in financial difficulties?

The writer can well imagine the reader saying to himself that the present is not the time to talk about thrift, when people have little or nothing to save and cannot indulge in waste because they have nothing to waste. But, the writer contends, this is, therefore, the most opportune of all times to advocate thrift and condemn waste. It would be a mistake to remain silent until times are booming again, because people then are in no mood to listen. It is when a dollar looms up big, big as ten dollars when times are good and business brisk, that people are more willing to give heed to the benefits of thrift. When money comes easily, it usually goes just as easily, but when it is hard to get we are more inclined to hold on to it.

In his autobiography, the late Edward Bok, the famous editor of "The Ladies Home Journal," tells how, when he came to America as a lad of six from the native land (the Netherlands), the most wonderful lesson for him was the necessity of thrift. He had already been taught that thrift was one of the fundamentals in a successful life; his family had come from a land noted for its thrift; but, he says, "we had been in the United States only a few days before the realization came home strongly to my father and mother that they had brought their children to a land of waste." Where, says Mr. Bok, the Dutchman saved, the American wasted. There was waste, and the most prodigal waste, on every hand. It was, he says, an easy calculation that what was thrown away in a week's time from Brooklyn houses would feed the poor of the Netherlands.

Continuing, Mr. Bok says: "At school, I quickly learned that to 'save money' was to be 'stingy'; as a young man, I soon found that the American disliked the word 'economy' and on every hand as plenty grew spending grew. There was literally nothing in American life to teach me thrift or economy; everything to teach me to spend and to waste. I saw men who had earned good salaries in their prime, reach the years of incapacity as dependents. I saw families on every hand either living quite up to their means or beyond them; rarely within them. The more a man earned, the more he—or his wife—spent. I saw fathers and mothers and their children dressed beyond their incomes. The proportion of families who ran into debt was far greater than those who saved. When a panic came, the families 'pulled in,' when the panic was over, they 'let out.' But the end of one year found them precisely where they had been at the close of the previous year, unless they were deeper in debt."

Is it not true, as the questioner advisedly—'that many of us are in financial difficulty today because, instead of exercising thrift when times were good, and putting aside a little against the day when times might not be good, we spent to the limit of our earnings, possibly beyond, in the belief that times would always be good, and now we are in trouble with no reserve to fall back upon? Is it not true that we were wasteful, perhaps not in big things, but in numerous little ways, carelessly expending a dollar here and a dollar there which, if saved, would be a veritable godsend now? In these days of world depression, France has been quoted over and over again as the nation least affected and with less unemployment than any other great nation. Why? Because the French people are notoriously thrifty; they save their pennies; they waste little.

But we in this new world, with far greater natural wealth and wider opportunity, are wasteful, extravagant, spendthrifts. And the result, when depression comes and with no reserves, we suffer. Is not, perhaps, the real, the underlying cause of much of our present difficulty to be found in this unfortunate trait in our people, this habit of carelessness, this lack of thrift? And when better times come again, as come they will, and work is again plentiful and earnings again rise, govern yourself accordingly. You are not wasting much now because you have not got it to waste; continue the habit when you again have something. You are practising thrift now because you must; continue it even when it is not a life and death necessity. You will then be ready for the next depression; better still, you will ward off such depression.

Waiter (seeing dissatisfaction on guest's face): "Wasn't the dinner cooked to suit you, sir?"  
Guest: "Yes, all but the bill. Just take that back and tell them to bolt it down a little."

Young Wife: "I learnt to cook while my husband was abroad."

Mother: "Well, and what did he say when he returned?"

Young Wife: "He went abroad again."

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms, such as heartburn, gas, heartburn, etc., will disappear in five minutes.

(Made in Canada)

### Speaks On Arctic Trip

Sir Hubert Wilkins Tells Australia Of Coming Submarine Adventure  
Sir Hubert Wilkins, explorer, told the home folks in Australia by radio how he planned to sneak up on the North Pole from beneath the sea by submarine.

The proposed submarine trip to the Arctic, the veteran of treks and airplane flights at both ends of the earth, said, would "probably be the most adventurous I have undertaken."

With a converted navy submarine, Sir Hubert plans to leave this country about May 1, go to England, thence to Norway and so begin his cruise into the ice fields of the Arctic Ocean.

The submarine is christened the "Nautilus," after Jules Verne's mersubmersible.

The submarine has been equipped with ice drills, capable of boring up through more than thirty feet of ice to reach the air. This type of large drill contains a hatch through which the crew can reach the ice and by which air can be brought into the boat when charging batteries.

Lady Wilkins told newspapermen that she would accompany Sir Hubert on his submarine voyage under arctic ice this summer. The object of his expedition to the North Pole is to establish a ring of meteorological bureaus to study seasonal weather conditions which may have an influence on the weather far to the west. He eventually hopes to have similar stations circling the Antarctic.

## Acids In Stomach Cause Indigestion

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, flatulence, gas, belching, nausea, etc., are due to the presence of hydrochloric acid in the stomach. The delicate stomach lining is irritated by the acid, and the food, instead of being properly digested, causes the disagreeable symptoms which every stomach sufferer knows so well.

Medical authorities are not needed in such cases and may do real harm. Try to avoid get over any disgustful stomach trouble. Merburn's Heart and Nerve Pills, after eating. This sweetens the stomach, and there is no nausea, gas or flatulence. Merburn's Heart and Nerve Pills, after eating. This sweetens the stomach, and there is no nausea, gas or flatulence.

### Aviation In Alberta

Alberta Flyers Have An Envious Record Of Performance  
Alberta flyers, fewer in number than those of the majority of the provinces in Canada, are among the most active, to judge from the latest figures from the Department of Civil Aviation, which show that during the year 1933, flights, during which about 500,000 miles were covered, were undertaken. Alberta flyers during the year spent 6,415 hours in the air, the average flight lasting for 25 minutes. The planes carried 12,169 passengers.

Persian Balm promotes daintiness, charm and beauty. It is unrivalled in its effect on the skin. Swiftly absorbed by the tissues, it leaves never a vestige of stickiness. Delightful to the touch, it softens and invigorates. Softens and makes the hands flawlessly white. Subtly fragrant, imparts youth and loveliness to the complexion. Persian Balm is the inevitable choice of the woman who cares.

### British Air Ministry

Has Difficult Task  
Every Day Amount Of Sunlight Penetrating City Is Measured  
One of the most difficult tasks in London is carried out daily at the Air Ministry offices, where the amount of sunshine penetrating the city is measured. The measuring apparatus consists of a small glass ball through which the heat of the sun passes to burn a special paper placed beneath it, the mark on the paper being used to compute the amount of sunlight passing through.

A Worth While Achievement  
American tourists returning from Europe report that beads are coming back into style. It is doubtful if they will ever again attain great popularity in America. But if some superstitious would advise a way to transmute the ever abundant facial hairs of the male to the uppermost portion of his cranium—ah, there would be an achievement.

Discover New Land  
New land has been discovered in the Antarctic by the Norwegian whaler, Tofryn, the whaler reported in a wireless message. The new land, the message said, is a continuation of Mt. Robertson Land, which Sir Douglas Mawson discovered last year.

Government and private steel works in Japan may be merged.

## When BABIES are Upset

BABY ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tonight! Have you a bottle of Castoria ready?

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergency use. It will be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its gentle regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.

### MacMillan's Equipment Will Include 'Planes

Arctic Explorer Outlines Plans For Trip Into Basin Land  
Donald B. MacMillan, Arctic explorer outlined plans for an expedition into Basin Land and the North Polar region next summer. The expedition, he said, would be in three sections—the first sailing from Wiscasset, Maine, June 20, to be followed by Dr. Alexander Forbes, of Boston, and Sir Wilfred Grenfell, of London. Three aeroplanes will be included in the equipment.

One of the principal objectives, he said, would be the study of glaciers to determine the possibility of the formation of another "glacier age."

When a mother detects from the writhings and fretting of her child the signs of a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

### Work For Russian Women

Soviet Government May Employ Women To Overcome Labor Shortage  
Employment of hundreds of thousands of women in industries to overcome the present serious shortage of labor, is being considered by the government of the Soviet Union.

With thousands of jobs for which there are no takers, the country today has the greatest shortage of labor in its history. With millions of women inactive it is believed the problem could be solved by pressing them into service. The children would be cared for by the state while their mothers are working.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mothed Graves' Worm Extirminator, an excellent remedy.

Canadian Coal  
Nova Scotia, New Brunswick, British Columbia and the Yukon produce only bituminous coal; the Saskatchewan mines yield lignite only; Alberta produces bituminous, sub-bituminous, and lignite, and formerly also mined some anthracite.

The chief objection to the school of experience is that it thinks up a new course every time you are ready to be graduated.

London now has 20,000 men on its police force.

for COLDS

### Test Was Convincing

New Foot-Proof Plane, Will Land Itself Safely  
A foot-proof aeroplane which its inventor claims will neither stall, spin or dive and will land itself, is the latest contribution to safety in the air.

While more than an hundred aeronautical experts and financiers watched the plane was successfully tested at Glenn H. Curtiss airport, New York. Piloted by Henry White, it made a half dozen short flights, and came to a near-perfect landing each time with the pilot's hands high above his head.

The designer is A. A. Merrill, of White Plains, N.Y., formerly in charge of aeronautical research at the California Institute of Technology, and a contemporary of the Wright Brothers, Octave Chanute and Langley. He has been working on the plane since 1913, and at one time was forced to mortgage his life insurance to continue.

Movable wings which can be adjusted over an arc of 14 degrees are the secret of the plane's stability. In flight these restricted flying surfaces prevent a pilot from unwittingly going into a stall or a dive. In landing, they mechanically level off at the proper distance from the ground and assume the proper gliding angle.

### Will Go On Polar Trip

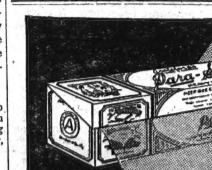

Lady Wilkins To Accompany Her Husband On Submarine Voyage  
Lady Wilkins told newspapermen at Montreal that she would accompany Sir Hubert Wilkins, veteran explorer, on his submarine voyage under Arctic ice this summer. Sir Hubert said the object of his expedition to the north pole would be to establish a ring of meteorological bureaus to study seasonal weather conditions which may have an influence on the weather far to the south. He said he eventually hopes to have similar stations circling the Antarctic.

Time Has Tested It—Dr. Thomas' Electric Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried it far beyond the seas. If it were double the price it would be a cheap liniment.

Alberta-B.C. Boundary  
Legislation has been brought down in the British Columbia legislature by Hon. N. S. Loughheed, Minister of Lands, approving the Alberta-British Columbia boundary as surveyed by a joint commission between 1913 and 1924.

When a mother detects from the writhings and fretting of her child the signs of a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

## FARM PARTY IS ASSURED FOR SASKATCHEWAN

Saskatoon, Sask.—Saskatchewan is assured of a new Farm Party, by a virtually unanimous decision of the United Farmers of Canada (Saskatchewan Section), decided to enter politics. They will seek backing of all citizens in electing candidates on a policy aimed at ultimate social ownership and non-profit production. Local autonomy was agreed on as a basis of the political move. Constituency conventions will be called when requested by 15 per cent. of U.F.C. local lodges in the constituency to be represented by two constituency-committee members, and the elected member of the constituency and the U.F.C. executive to attend. Efforts of the new party, whose date of inauguration by convention is at least two months distant, will be directed into provincial and Dominion fields. The step places Saskatchewan, largest wheat province in Dominion, alongside Alberta, in politico-agrarian organization. The Saskatchewan body claims 26,800 members as compared to 18,105 for United Farmers of Alberta. Manitoba's farm-unit is a non-partisan body. It is necessary, before official inauguration of the movement, to receive ratification from local lodges for a constitutional change removing the U.F.C.'s ban on political alliances. This would take some 60 days.

Platform of the new party will be based on the U.F.C. economic policy approved at the four-day annual convention's second session recently. It includes demands for 100-per-cent grain pooling; "pegged" grain prices; government price-fixing board; nationalization of currency, credit and natural resources; and province-wide crop insurance.

In addition, the policy program included demands for Dominion and provincial debt adjustment moves. It asked completion and operation of port and elevator facilities at Churchill by next September, and legislation to make Churchill a free port of entry for all goods, and freight and express rate cuts.

Deliberations in favoring political action, wiped from a resolution adopted by the U.F.C. board all stipulations that formation of the new party occur at the refusal of Dominion or provincial administration to put the new-formed economic policy into effect.

The convention's stand is a reversal of the decision at the 1930 meet, when political action was turned down by eight votes and formation of a political body outside the U.F.C. was favored. Officials claim that of three candidates in the last Dominion election pledged to back U.F.C. demands, two were elected—Milton Campbell (Mackenzie), and A. M. Carmichael (Kinderley), both Progressives.

It is considered unlikely that George H. Williams, immediate past president of the U.F.C., will seek the leadership of the new party if it is formed before spring. He is understood to believe that A. J. Macaulay, elected president of the U.F.C. today, should rather be a candidate for the position.

Backed by Williams, Macaulay was named leader on constitutional grounds, though almost all delegates favored Williams remaining in office beyond his expired two-year term, limit under the constitution. Macaulay, formerly vice-president, maintains a large grain and stock farm at Wapagan, Sask. Williams is expected to be a candidate for the presidency at the next convention.

J. F. Herman, Rocanville, was elected vice-president.

### Increase In Autos

Ottawa, Ont.—Canada had a motor vehicle for every eight persons in 1930, as compared with one motor vehicle for every 11 people in 1929, according to a report issued by the Dominion Bureau of Statistics recently. The number of motor cars registered in 1930 was 1,239,880, an increase of 44,295 over the previous year.

**Clothing For Needy Families**  
Ottawa, Ont.—Twenty-one families in the Adanac, Sask., district have been provided with warm clothing through the efforts of the employees of the department of labor here. The bag, which contained 365 articles of clothing, was sent west a few days ago and has been received. Part of its distribution among needy persons of the district.

W. N. U. 1879

## Northern Trade Route

Insurance Rates To Be Lower Than Expected Out Of Hudson Bay.

Ottawa, Ont.—Within the past three weeks there has been a sudden and in many ways completely unexpected interest on the part of Canadian, British and foreign shipping companies in the Hudson Bay route. Hon. Dr. R. J. Manion, Minister of Railways and Canals, declined to discuss these recent developments. He will make a detail statement in parliament, by which time it seems certain that definite plans and commitments will have been reached which will assure Fort Churchill a striking opening, and ensure the future success of the new trade route.

It is learned authoritatively that several large steamship companies have come forward and declared their intention of placing ships on the new route. This applies to British and foreign shipping. There has been a most remarkable reaction among Canadian ship operators, who see tremendous possibilities in the development of inter-provincial trade. Maritime provinces companies are going to try to develop trade direct with the prairie provinces. British Columbia companies already have completed plans for a trade in lumber, with cargoes of wheat outgoing from Churchill to foreign ports, and a return cargo from foreign ports to Vancouver.

These shipping interests have taken a firm hand in matters of insurance and cargo rates. Lloyd's of London, England, have been stirred up and it may be announced definitely that the insurance rates out of Churchill will be much lower than hitherto has been expected.

## Important Ruling By Alberta Supreme Court

Collection Of Fees Under Dominion Charter Is Illegal

Calgary, Alberta.—Fees assessed by the Lieutenant-Governor-in-Council on companies with a Dominion charter cannot be collected, according to judgment of the appellate division of the Supreme Court of Alberta. The question arose in an action taken by the attorney-general of Alberta against the Royal Oil Company for collection of a fee imposed by the provincial government. The Lieutenant-Governor-in-Council and under the Alberta Companies Act.

## To Oblige the Prince

Revolt In Peru Is Held Off Until Departure Of His Royal Highness

Vina Del Mar, Chile.—Reliable persons reaching here from Peru declared that the revolt in that country was ready to start at the time the Prince of Wales visited Peru only a few days ago, but was held off until the British party had safely left. The persons who gave the information followed the Prince of Wales' party through Peru and Bolivia. They said that while the Prince of Wales was in Peru a number of officers, who said a revolution was impending, went to the Prince and told him that they would hold it off until he had completed his visit.

## Well-Known Geologist Dead

Dr. Robert Stewart, Of Toronto, Had Stirring Career

Toronto, Ont.—Dr. Robert Stewart, well-known geologist and medical practitioner, and an authority on mining in the Hudson Bay district, died here last week.

While associated with the Hudson Bay Company and the Ontario Bureau of Mines, Dr. Stewart had a stirring career, being twice shipwrecked on Hudson Bay boats, once in the Bay of Ungava, in 1925, and once off the coast of Labrador, in 1927. His last trip to the North was made in 1928. Dr. Stewart was born in Lucknow, Ontario.

## Unemployed Make Trouble

Girl and Two Policemen Injured In Toronto

Toronto, Ont.—Two policemen, a ten-year-old girl and a woman were injured when at least 2,000 of Toronto's unemployed gathered at the corner of Spadina Avenue and Dundas Street, in the downtown section, where a proposed unemployment demonstration was to be held.

Seven demonstrators were arrested when stones, bricks, and other missiles were directed at the police, who retaliated by a charge along the thoroughfare.

## RUSSIA WOULD TRADE COAL FOR FARM MACHINERY

Montreal.—If Canada will accept \$3,350,000 worth of Russian coal in part payment, Russia is willing to purchase her agricultural machinery, the total value of which will amount to \$10,000,000, according to a plan which Lieut.-Colonel Herbert J. Mackie, former Conservative member of parliament, stated he had laid before the government at Ottawa, on behalf of the Soviet Government. The balance of the debt would be settled in gold, and the Soviet Government is understood to have expressed its willingness to hold a conference with Canada at which a plan would be formulated for marketing of wheat without dumping.

In the opinion of Col. Mackie some understanding with Russia about the marketing of wheat is expedient. Anticipating the success of the five-year plan and casting an eye on Russia's success in wheat growing up to this time, he seemed impressed with the strength of her position. He feared that unless some agreement was reached with Russia, she would undersell Canadians in every market of the world.

As for the opposition against importing Russian coal, Col. Mackie believed that the strongest propaganda had been emanating from American opposition to the Soviet. Russia's purpose is to export anthracite in domestic sizes, a product which could not possibly compete with coal from Nova Scotia. The Russian coal would be in direct competition with the imported American product, Col. Mackie said.

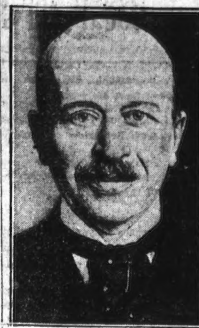

"Canada and Russia must get together on wheat—we must have a conference," said Lt.-Col. Mackie.

"As things are, we bid fair to provoke Russia. At a conference in London, England, with a Canadian trade representative, Saul Bron, the chief Soviet delegate to the British Empire, reiterated this plea, and this warning: 'Do not put Russia on the defensive.' He said it again and again, earnestly, pleadingly."

"I know the seriousness of Bron's statement, possibly better than any other Canadian, for I have made 17 visits to Russia since the revolution, and I know Russia's power to help or hurt my country," to wage economic war or peace.

"High Russian officials have approached Canada through me, asking for a conference. The idea receives the support of the Argentine and Australian government representatives in London, England. Only a few days ago Chairman Legge, of the U.S. Farm Board, said that he could see value, with nothing to lose, in such a conference with Russia."

## NOTABLE STATESMAN

Sir Laming Worthington Evans, 62, Secretary of War in the last Conservative government of Great Britain, who died February 13, had a distinguished political career and was one of the mainstays in the high councils of the Conservative party. As a great lawyer he will be remembered by Canadians principally as the London solicitor appointed by the English courts to realize assets of the British America Company, the London Globe, and other Whittaker Wright concerns after the great financial smash in 1901.

## Sign Wheat Agreement

Sixteen European Nations Sign On Disposal Of Wheat Stocks

Paris, France.—At the French foreign office, 16 European nations signed the final act for the disposal of the wheat stocks of the central and European states. Russia was not invited to the conference. Russian wheat, therefore, was not included.

The signatory states are Germany, Austria, Bulgaria, Estonia, Finland, France, Greece, Hungary, Italy, Latvia, Poland, Lithuania, Rumania, Switzerland, Czechoslovakia, and Yugoslavia. Seven persons did not sign. They are Britain, the Irish Free State, Belgium, Denmark, Spain, the Netherlands, and Sweden.

## Well Supplies Boiling Water

Vimy, Alberta.—Leo Chaput, farmer of this district, is taking things easy these days. Not for him is the worry of boiling water with which to brew his favorite cup of tea, for shaving water or the long-deferred ablution. He recently tapped a well that supplies him with ready boiled water all the time. Mr. Chaput has sent two bottles of the water to the University of Alberta for analysis.

## Report Is Denied

Ottawa, Ont.—No fixed discount from list prices has so far been placed for duty purposes on books imported into Canada from the United States for sale. This was the statement made at the Department of National Revenue in referring to a report that a fixed discount of 49 per cent. was to be applied generally on books imported from the United States, effective April 1.

## ROYAL BROTHERS AT GOLF

The Prince of Wales and his brother, Prince George, are here seen on the golf links at Panama, C.Z., during a round when they made a short stay at the Canal Zone city on their way south to the Argentine exposition. Note the Prince of Wales' double-decker hat which he uses as guard against the sun.

## Women Mushers Staging Race For Championship

One Of Feature Attractions At The Pas Dog Derby

Winnipeg, Man.—A duel over the snow-covered trails of Northern Manitoba to settle the title of woman dog mushing champion of the world, with a side bet of \$1,000, promises to be one of the feature attractions of dog derby week at The Pas as a result of developments, announced by A. E. Warren, vice-president Canadian National Railways, patron of the northern classic. Early this winter Miss Thula Giesler, girl musher from McCall, Idaho, recognized as the leading musher in the western states, challenged Mrs. E. P. Ricker, of Poland Springs, Maine, to a 25-mile dog race for the mushing championship of the fair sex. She asked for a side bet of \$1,000 to be posted before the race. The contest would take place over a course here selected by the dog derby committee.

The dog derby committee of The Pas has received a wire from Mrs. Ricker accepting the challenge. Both women are expected to take part in the 200-mile dog race from The Pas to Pin Point and return starting March 20. Miss Ida Carriere, another woman entry, is also training over northern trails for the long race.

Three of the northland's most fearless mushers, St. Godard, Earl Brydges and "Shorty" Russell, left Winnipeg via Canadian National Railways for The Pas, Man., where they will whip their dogs into shape for the gruelling 200-mile race.

## SEA HARBOR FOR PRAIRIES TO OPEN SOON

Winnipeg, Man.—In a few weeks workmen will toil again at Churchill. They will start on the six-month job on a job that is to give the northern harbor a 2,500,000-bushel grain elevator with the second largest warehouse in the world.

Storage will mean but little to the sprawling mtns ranged along the south shore of the rock-girt harbor at the end of the Hudson Bay Railway. But ability to handle grain—to dump cars, to clean, weigh and separate the grain, to run it out to waiting ships—will be a paramount necessity for the port at the end of a winter-shortened season.

More than 500,000 bushels daily may pour through the varied processes of the Churchill elevator's warehouse when work is completed in the middle of next September. Only the great 200 Elevator Number Seven at Port Arthur, will be able to handle grain more rapidly than the terminal "north of 58." If the Churchill plant is ever pressed to capacity the route will be a success.

About 750,000 bushels of wheat will be rushed overseas this fall between the time the elevator is ready September 15 and the close of navigation on the Bay, according to the promise of Dominion authorities. Some organizations in the west are pressing for a shipment of as much as 5,000,000 bushels this fall, but it is understood from reliable sources that such a flow of grain in the brief available time would tie up dock work in progress and threaten the efficiency of elevator and dock facilities.

At the present moment, ground-work on the elevator is completed to the first floor. In late March it is expected construction of the power house will commence alongside the elevator. In May, concrete pouring begins on the elevator and the warehouse, from the ground floor upward. Work on shipping galleries, too, must be hurried in order to have them ready for the restricted shipping of this fall.

Across the harbor from the historic Port Prince of Wales, the new elevator will reach out 500 feet along the shore line and tower 200 feet against the north's grey sky. Close by are the terminal yards of the Hudson Bay road, which rolls northward over 500 miles of muskeg country from The Pas, itself on Manitoba's frontier.

All Canada will be watching when the mechanism of Churchill's port moves into real action this fall—more than 800 years after the Dane, Jans Munch, first eased his boat into the mouth of the Churchill River to spend the tragic winter that cost the lives of all but three of his 64-man expedition. This fall comes the test of Canada's greatest experiment for many a year—the building of a sea harbor for the prairies.

## RECOVERY NOW INDICATED IN EMPLOYMENT

Ottawa, Ont.—Although the number of persons employed by Canadian firms reporting to the government at the beginning of February was less than at the same date in the preceding three years, it was greater than in any earlier year since 1921. Returns have been received by the Dominion Bureau of Statistics from 7,431 firms. These show pay rolls aggregating 904,315 persons on February 1, as compared with 913,680 on the first of January, just one month previous.

The bureau reports that important recovery was shown in the employment returns received from manufacturing firms, in truth engaged in the textile and the iron and steel industries. Improvement was also shown in railway construction and in shipping and stevedoring. On the other hand appreciable declines were noted in highway and building construction, in trucking, engineering, logging. These contractions, it is stated, were, in many cases, of a seasonal character.

The trend of employment, it is reported, was upward in Montreal, Ottawa, Hamilton, Windsor, and the adjacent border cities of Vancouver, Quebec City, Toronto and Winnipeg reported recently.

The bureau makes the following report on employment by economic areas:

**Prairie provinces:** Employment in the prairie provinces has shown a contraction at the beginning of February in most years of the record, but the falling-off reported by the firms making returns on February 1, 1931, involved a large proportion of the aggregate payroll that has been the case in the last few years. Statements calculated from 1,102 employers, whose staffs declined by 6,666 persons to 121,873 on February 1. Logging was more active and railway construction also showed improvement, but manufacturing, mining communications and transportation reported considerable curtailment.

**British Columbia:** There was a moderate contraction in employment at the beginning of February; this took place mainly in the highway construction and service group, while manufacturing, building, and railway construction were rather busier. The working forces of the 744 reporting firms aggregated 79,383, a decrease of 459 persons as compared with their January 1 staffs. A slight improvement had been indicated on February 1, 1930, and the index was then a few points higher.

## May Amend Mining Act

Ontario Introductory Bill To Bar Speculators In Townships

Toronto, Ont.—Speculators who rush into mining areas and avail themselves of the privilege of filing on claims which they hope to develop into townships, hot-dog stands, or barber shops will be frustrated in future under the provisions of the bill to amend mining act, introduced into the Ontario legislature by Hon. Charles McCrae. All claims must be developed as mines and not as real estate speculations under the amendments planned.

## Win Cavalry Cup

Manitoba Mounted Rifles, Portage In Prairie, Awarded Honor

Ottawa, Ont.—Manitoba Mounted Rifles, Portage la Prairie, won the Canadian Cavalry Association's signaller-challenge cup with a score of 5,538 points out of a possible 5,718. It was announced here recently. Eighth Princess Louise Hussars, New Brunswick, came second with 4,246 points.

Oxford Rifles, Woodstock, Ontario, won the Infantry Signaller's competition with 5,658 points.

## Seeking Pensions For Blind

Manitoba Asking Federal Government To Finance Scheme

Winnipeg, Man.—Dominion parliament is called upon to implement a pension scheme for blind persons in a resolution adopted in the Manitoba Legislature.

The resolution was sponsored by William Evans, Labor member for Winnipeg. The pensions for the blind would be financed in whole or in part by the federal government.

## Local and General Items

J. W. MacDonald, K.C., was in town today from Macleod.

Mrs. Ed. McDonald and son Ronald returned from Lethbridge on Sunday last.

It will pay you to read the advertisement of the F. M. Thompson Co., Ltd.

The Blairmore Players will present their play, "Tons of Money," at Pincher Creek on the night of Wednesday next, March 11th.

We are asked to state that the tags sold in Blairmore on Tuesday were not to raise funds to help the Coleman or Lacombe hockey clubs.

The Ladies' Aid of the Blairmore United church, will hold their annual tea and sale in the Moose hall on April 2nd, 1931.

Mr. and Mrs. R. W. Morgan, Pincher Creek, and Mr. and Mrs. L. L. Morgan, Blairmore, returned by motor the early part of the week from a two month's vacation trip south.

Secure your tickets for the St. Patrick's entertainment now. Remember, the Columbus Club will be the mecca for music, dancing, songs, etc., on St. Patrick's night.

Unemployed, for whom relief work had been provided by the city of Fernie, had the audacity to go on strike for higher pay. At the same time, the city of Fernie already stood to lose seriously through the under-taking.

Everybody's friend! That's Will Rogers—and he'll be here to entertain you this week at Cole's theatre in "Lightnin'," his latest comedy drama for Fox Movietone, which is said to surpass his two previous talkie hits, "They Had To See Paris" and "So This Is London."

Four Calgary youths, who attempted to burglarize a store at Staveland were given quick justice, being, inside of twelve hours, sentenced to serve two years each in Prince Albert penitentiary for breaking and entering. They will yet face the charge of stealing a car, the property of L. J. Garrison, Calgary.

A kindly, but somewhat patronizing landlady, inquired of the young bride how she and her husband proposed to spend their holiday. "Our plans, so far, are tentative," replied the bride, a little distantly. "Oh, how delightful," exclaimed the landlady. "I'm sure you'll enjoy camping out more than anything else you could do."

The Nanton News states: "While Grant Laidlaw was at Blairmore last week for the hockey game, someone stole his extra automobile tire and rim. Grant is offering a good pair of socks for their return, and no questions are asked." Seems too small a trick to be played by a Blairmoreite, and we promise faithfully to give the silly guy all the publicity he deserves if we get to know of him.

The former Holloway building, at the corner of Eighth Avenue and Stuart Street, has become a real menace to people living in that neighborhood, and unless some action is taken to have the premises boarded up or destroyed, danger of fire is very imminent. It is not a part of the school property, but is frequented by young school lads who are anxious to learn the habit of smoking.

The Pass Junior Cubs were defeated by Eddie Poulin's Calgary Canadians 3-2 at the local arena last night in one of the fastest and most hectic games of the season. In play, the Pass squad seemed to have the edge decidedly, but missed many opportunities for scoring. Calgary brought their referee with them. Although the second game was billed to be played here tonight, it was found late yesterday afternoon that Calgary would have ice, so both teams journeyed north by local train today.

There was no boogie at the arena last night, Coleman fans being conspicuous by their absence.

Rev. J. W. Smith, B.D., is this week end attending a meeting of Presbytery at Lethbridge.

FURNISHED HOUSE - Four rooms and pantry, indoor toilet, hot water. Rent \$17.00 per month: Phone 131, Blairmore.

During the recent warm spell, when Calgary was without ice, Kimberley, Banff and Blairmore offered the use of ice for play-off games.

Blairmore and Lacombe will clash in the intermediate final at Lacombe tonight. Lacombe secured a lead of three goals in the opener here.

An eight-teen-hole miniature golf course has been opened up today in the basement of Scott's Grocery store, and promises to attract considerable interest.

A grand basketball tournament will be staged at the Columbus Club here on Saturday night, with the opening feature at 9 o'clock—Taber Union Jacks versus Blairmore Columbus Club.

The regular monthly meeting of Crows' Nest Chapter, I.O.E.E., will be held at the home of Mrs. J. R. Warner on Monday next, March 9th, at 7.30 p.m. The executive will meet fifteen minutes earlier.

Mrs. E. Ennis (nee Miss Doris Williams) returned this week from Lethbridge, where she has been for a couple of months, taking a course in marcelling, etc. We understand that Mrs. Ennis will open up a beauty parlor here in the course of a few days.

Be ready for the grand St. Patrick's entertainment, to be staged in the Columbus Club, Blairmore, on the night of Tuesday, March the 17th, under auspices of St. Anne's Catholic church. A splendid programme will include a three-act comedy drama, entitled, "My Irish Rose."

The many friends of Charlie Graham and Jimmy Fraser, formerly of Coleman, but now with the Lacombe hockey intermediates, were glad to greet him the early part of the week. Charlie is making a success of the painting and decorating business in Lacombe and is the manager of the Lacombe team.

Our guess that Blairmore would win the series over Gleichen was right, and we felt so strongly about it that we took a chance on printing the bills for Lacombe-Blairmore, to have them distributed immediately at the close of Saturday night's tilt. Calgary's claim that Lacombe and Gleichen would have both games of their respective series played on their own ice was not showing good judgment, and no club in hockey should have stood for it.

Will Rogers was a hit in "They Had To See Paris," he was a scream in "So This Is London" and in "Lightnin'," current attraction at Cole's theatre, he is a riot. "Lightnin'," adapted from John Golden's internationally successful stage success, affords Rogers rare opportunities for humor, and he is perfect in his portrayal of the whimsical, indolent, tipping old liar and splendid support is furnished by Louise Dresser, as his wife, and Helen Cohan in the role of the daughter.

An exchange coming into The Journal each week contained the following amusing skit:

There was a man in our town and he was wondrous wise, He swore by all the gods above he would not advertise! But one day he did break the rule, and thereby hangs a tale: The ad. was set in real small type and headed—"Sheriff's Sale."
